

GOVT. OF PUNJAB

Municipal Corporation Ludhiana

Zone-D office, Sarabha Nagar, Ludhiana

PIU, Ludhiana requires following specialists purely on contractual basis for Surface Water Supply

Project (world Bank Project) :-

1. Project Manager
- Tentative Salary Rs. 1,50,000/ month
2. Dy. Project Manager
- Tentative Salary Rs. 1,50,000/ month
3. Sr. Treatment Plant Engineer (Executive Engineer Level)
- Tentative Salary Rs. 1,50,000/ month
4. Site Engineers (Assistant Engineer Level)
- Tentative Salary Rs. 75,000/ month
5. Site Engineers (Junior Engineer Level)
- Tentative Salary Rs. 50,000/ month
6. Sr. Pipe Line Engineer (Executive Engineer Level)
- Tentative Salary Rs. 1,50,000/ month
7. Site Engineers- (Assistant Engineer Level)
- Tentative Salary Rs. 75,000/ month
8. Site Engineers- (Junior Engineer Level)
- Tentative Salary Rs. 50,000/ month
9. Sr. Construction Engineer (Executive Engineer Level)
- Tentative Salary Rs. 1,50,000/ month
10. Site Engineers- (Assistant Engineer Level)
- Tentative Salary Rs. 75,000/ month
11. Site Engineers- (Junior Engineer Level)
- Tentative Salary Rs. 50,000/ month
12. Environmental Safeguard Specialist
- Tentative Salary Rs. 80,000/ month
13. Social Safeguard Specialist
- Tentative Salary Rs. 80,000/ month
14. Health & Safety Specialist
- Tentative Salary Rs. 80,000/ month
15. Communication Specialists
- Tentative Salary Rs. 70,000/ month
16. Finance Manager
- Tentative Salary Rs. 40,000/ month
17. Procurement Specialist
- Tentative Salary Rs. 75,000/ month
18. Engineer Trainee
- Tentative Salary Rs. 12,000/ month
19. Data Entry Operators cum Office clerks
- Tentative Salary (Applicable DC Rates)
20. Draftsman cum AutoCAD Expert
- Tentative Salary (Applicable DC Rates)
21. Office Peon
- Tentative Salary (Applicable DC Rates)

Necessary qualifications are as follows:-

Sr. No.	Post	Essential Qualification	Resource Requirement	Tentative Pay Range per month (in Rs.)
1	Project Manager	Degree in Civil with experience of approx. 20 years including experience in managing and execution of infrastructure development works related to Canal based Water Supply Scheme. Experience in Govt. sector is desirable. Experience in handling WTP, Pipeline Works and OHSRs including SCADA Systems. Coordination with Contractors for ensuring smooth Planning and Execution of Project Activities to achieve the Contractual Progress Milestones. Should have managed several projects and staff.	1	1,50,000/-
2	Dy. Project Manager	Degree in Civil/Mechanical with experience of approx. 15 years of experience managing and executing infrastructure development works related to Canalbased Water Supply Schemes. Experience in Govt. sector is desirable. Experience in handling WTP, Pipeline Works and OHSRs including SCADA Systems. Coordination with Contractors for ensuring smooth Planning and Execution of Project Activities to achieve the Contractual Progress	1	1,50,000/-

		Milestones. Preference to PG or eq in WS engineering		
3 (a)	Sr. Treatment Plant Engineer (Executive Engineer Level)	Degree in Civil / Mechanical Engineering with a minimum 15-year experience working in a government department / private sector for the execution of infrastructure development works related to Water Supply Schemes - key expertise should be the construction of WTP. Prefer PG in Public Health Engineering or equal. Working knowledge of SCADA systems is desirable. Experience in Supervision works for the installation of pumping machinery is also desirable. Should be qualified enough to review design & drawings of the water treatment systems. Knowledge of water transmission and the overhead Service Reservoirs is additional advantage.	1	1,50,000/-
3 (b)	Site Engineers (Asst. Engineer / Junior Engineer)	Degree in Civil / Mechanical Engineering with desired experience (5-year experience for J.Es and 10 years for AE of which some managerial level experience; of working in government department / private sector for execution of infrastructure development works related to Water Supply Schemes including Construction of WTP. Experience in Supervision works for installation of pumping machinery is desirable. Experience in taking measurements of works, preparation of running bills of all works and final bills of such work, Quantity surveying, Preparation of BOQ, variations etc. is essential. Knowledge of Modern & Digital survey techniques and preparation of Auto CAD drawings. Max age should be 45 years	3	For AE : 75,000/- For JE : 50,000/-
4 (a)	Sr. Pipe Line Engineer (Executive Engineer Level)	Degree Civil / Mechanical Engineering with minimum 15-year experience of working in government department / private sector for execution of infrastructure development works related to Water Supply Schemes including laying, jointing and testing of large diameter DI and MS pipelines. Demonstrable experience in construction supervision and commissioning of transmission mains is essential. Should highly qualified / experienced to Review Design & drawings of the water transmission, prepared by Construction Contractor.	1	1,50,000/-
4 (b)	Site Engineers (Asstt. Engineer / Junior Engineer level)	Degree in Civil / Mechanical Engineering with suitable experience (minimum 10 year for AE level of which 3 years in managerial level; 5-year experience for JE level) of working in government/ private sector for execution of Water Supply infrastructure development works mainly laying and testing; and commissioning of Pipeline. Demonstrated experienced in construction supervision and commissioning of water transmission mains is essential. Experience in taking measurements of works, preparation of running bills of all works and final bills of such work, Quantity surveying, Preparation of BOQ, variations etc. Knowledge of Modern & Digital survey techniques and preparation of Auto CAD drawings. Max age should be 45 years	4	For AE : 75,000/- For JE : 50,000/-
5 (a)	Sr. Construction Engineer (Executive Engineer Level)	Degree in Civil Engineering with minimum 15-year experience of working in government / private sector for execution of infrastructure development works related to Water Supply Schemes, mainly construction of OHSRs. Prefer PG in structural engineering. Should have extensive experience of construction and operation of the water supply; mainly demonstrable high-quality experience in overhead reservoirs construction and commissioning; and should be qualified enough to review design & drawings of the of the Over Head Service Reservoirs, prepared by Construction Contractor.	1	1,50,000/-
5 (b)	Site Engineers (Asstt. Engineer / Junior Engineer)	Degree in Civil Engineering in structural engineering mainly reservoirs (with minimum 5-year experience for JE level and 10 years for AE level incl 3 years as manager) of working in a government department / private sector for the execution of infrastructure development works related to Water Supply Schemes including	5	For AE : 75,000/- For JE : 50,000/-

	level)	Construction of OHSRs. The scope of work Include taking measurements of works, preparation of running bills of all works and final bills of such work, Quantity surveying, Preparation of BOQ, variations etc. Knowledge of Modern & Digital survey techniques and preparation of Auto CAD drawings.		
6	Environmental Safeguard Specialist	M.Sc in Environmental Sciences, Minimum 10 years experience in state, central or ULB level or Urban Poverty Alleviation, Knowledge of Environmental Impact Assessment, Environmental Management Plan, Forest Clearances, Environmental Monitoring, Environmental & Social Audit	1	80,000/-
7	Social Safeguard Specialist	Master's Degree or Equivalent in Social development disciplines-Sociology/Anthropology/Social Work and or and or development studies or a related field. Minimum 10 years' experience in preparing, implementing and monitoring social safeguards strategies and plans and social development schemes associated with infrastructure projects (preferably in Water Supply & Sanitation sector) and having experience in gender program development, progressively responsible for gender mainstreaming, management of strategic Capacity Building on gender.	1	80,000/-
8	Health & Safety Specialist	Suitable graduation preferably in occupational health, Safety and Environment Management or diploma/training in Safety/EHS from NICMAR or equivalent with 5 years of experience in working on major construction sites	1	80,000/-
9	Communication Specialist	Minimum post graduation degree from a recognized and respected institution in Communications, Development Communications, Mass Communications or Journalism with Minimum five (5) or more years of experience in corporate communications, public relations, development communications or journalism. Excellent written and verbal communication skills in English, Hindi and Punjabi / Gurmukhi	1	70,000/-
10	Finance Manager	CA inter or a good B.COM with a minimum 5 years of relevant experience on the financial management of firms or agencies.	1	40,000/-
11	Procurement Specialist	A good engineering or management degree with minimum 5-7 years of handling procurements and managing contracts for infrastructural projects. Law with advanced degree, diploma or training in contracts and procurement administration is desirable.	1	75,000/-
12	Engineer Trainees -	Fresh Graduate engineer trainees can be hired with no experience based on the need	5 (need based)	12,000/-
13	Data Entry Operator and Record Keeper	Graduate in any discipline having sound knowledge of Computer application & having three years' experience in reputed organisation	4	Applicable DC Rates
14	Draftsman cum AutoCAD Expert	B.E. (Civil) or Diploma (Civil)	1	Applicable DC Rates
15	Office Peon	Middle	3	Applicable DC Rates

Interested candidates should send their CV/ Form to ludhianapiu@gmail.com by 08-08-2023, 05:00 pm along with qualification and experienced certificate scanned in original.

Note :-

- The Project will last for 05 years.
- The Contract for the posts shall be initially for one year and may be extended depending on the performance and need of the World Bank.
- Salary Negotiable.

Joint Commissioner (M),
Municipal Corporation Ludhiana.
